Ready for
voting
or general
elections

Key Features

User-friendly

- Voting from anywhere using any device
- Easy to learn and fast process
- Paperless

Secure

- Only verified voters
- Each voter can vote only once
- Cast votes are undeniable

Robust and Flexible

- Anonymized or personified voting modes
- Change of vote up to closure might be allowed
- Optional display of preliminary results during voting

Parliamentary Voting Scenarios

Regular Voting

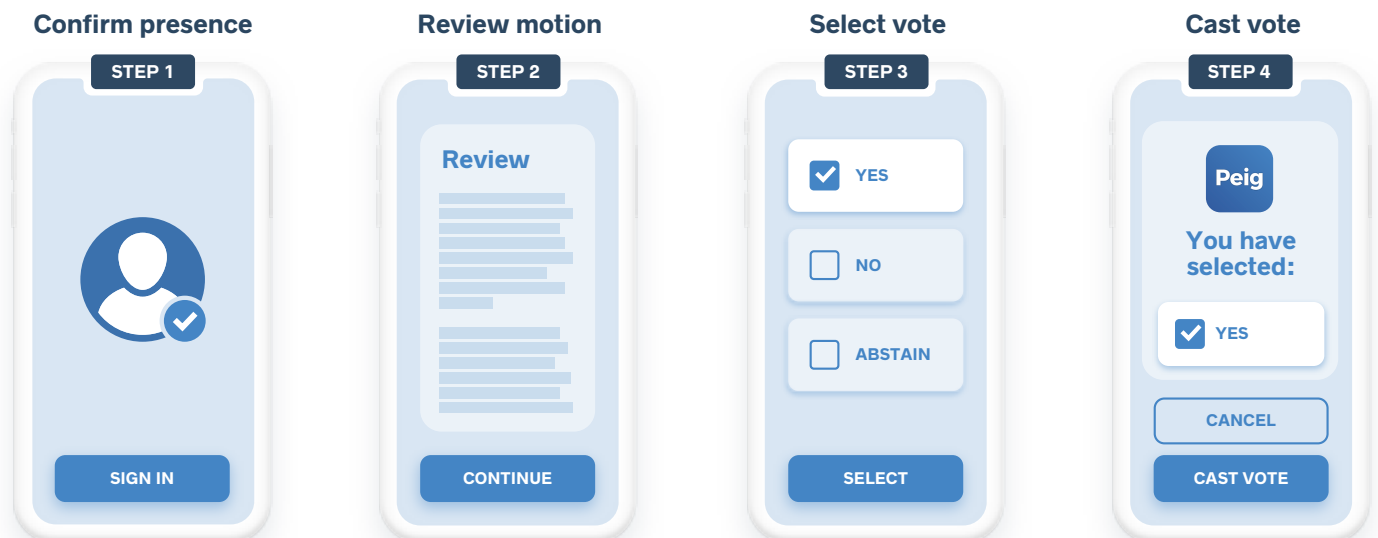

Members of parliament (MP) who are unable to participate in the voting session physically, e.g. due to business travel or health reasons, can connect remotely and vote equally as present MPs.

Extraordinary Situations

When MPs assembly is entirely unfeasible, e.g. due to pandemic or natural disaster, the whole voting session can be carried out online.

Remote voting is as simple as voting on-premise

eVoting is secured with the digital identity app Peig.

Get in touch to tailor the eVoting solution to fit your organization's requirements.
